To: Town Planning Commission Members
From: Mike Kading, Parks and Recreation Director
RE: Other Business Item 1 - Highway 47 Alternate Transportation Corridor

Hwy 47 Bicycle / Pedestrian Transportation Corridor: Activate Fox Cities and Fox Cities Greenways have developed a concept plan to connect the City of Appleton to the City of Neenah via the Town and City of Menasha in cooperation with selected staff from each community. The proposed corridor would utilize Hwy 47/Appleton Road as the most direct route. This route would not be considered a Recreation Trail and may include on and off road facilities for bikes and sidewalks.

On January 7, representatives from Activate and Greenways shared with elected officials their vision for a bicycle / pedestrian transportation corridor. I would like to present a shortened version of the presentation to bring the Commission up-to-date on the overall concept.
