

TOWN OF MENASHA STREET DEPARTMENT

March 13, 2012

Attn: N. Lake Street and adjoining residents

RE: N. Lake Street Reconstruction – Informational Meeting

The Town of Menasha has awarded the contract for street reconstruction of N. Lake Street to MCC, Inc., Appleton, WI.

MCC, Inc., in conjunction with the Town of Menasha has scheduled an informational meeting on **Tuesday, March 27, 2012, at the Town of Menasha Municipal Complex, 2000 Municipal Drive, Neenah, from 5:30pm – 7:00pm.** The first thirty minutes will be given to individuals to review the plans and information. A presentation will be given at 6:00pm to explain the project, followed by a group question and answer session. The remaining time will be used for individual questions residents may have pertaining to this project and their property.

N. Lake Street will be reconstructed from Fritse Park extending south to the railroad tracks just south of the town/city boundary. Work shall consist of a full road reconstruction with installation of storm sewer, curb & gutter, and reconstruction of a box culvert. A 10 foot pedestrian trail will be constructed along the east side of the road, which will connect the trestle trail from Fritse Park to the new Herb & Dolly Smith Park in the City of Neenah. Work is anticipated to start the week of April 9th and is scheduled for completion by October 15, 2012.

This project is very complex and travel on the roadway will be limited to one-way traffic during different phases of construction. Access to driveways and properties will be maintained throughout this project, but may be temporarily closed and reopened as soon as practical. The roadway will be limited to emergency and local traffic only.

To help provide as much communication regarding the project as possible, a link will be provided on the town's website, www.town-menasha.com, which will give you weekly updates regarding the process of the road construction. The link on the town's website will be available prior to the start of this project.

On the back side of this letter, you will find contact information from the contractor regarding the contact person, project schedule, work coordination, parking and other pertinent information related to this project.

Your cooperation in this matter is greatly appreciated.

Randy Gallow
Street Superintendent
Town of Menasha

Lee Reibold
Town Engineer
McMahon
